

Transcript Explanation for Undergraduates at Qufu Normal University

1. Course Grade (Based on a percentage scale)

$$\text{Course Grade} = (\text{Course result} \div 10) - 5$$

The course grade will be 0 if the course result is less than 60; The course grade will be 4.5, 3.5, 2.5, 1.5, 0 if the results apply to Excellent, Good, Medium, Pass, Fail.

2. Course Credit GPA

$$\text{Course Credit GPA} = \text{Course grade} \times \text{Course credit}$$

3. GPA

$$\text{GPA} = \sum \text{course credit GPA} \div \sum \text{course credit}$$

4. The correspondence between the five-point system and the percentile system

Course result	A	B	C	D	E
Percentile result	95	85	75	65	0
Percentile scale	[90,100]	[80,90]	[70,80]	[60-70]	<60
